## PREVENTITIVE MAINTENANCE PROGRAM

Our PM program centers around the thorough condenser cleaning that Sub Zero recommends twice a year. The cleaning of the condenser is necessary to insure optimum performance....preventing excessive energy consumption.

This program includes:

1. Cleaning the condenser internally with compressed air, then vacuuming all areas.
2. Complete product inspection that includes:
  - a. Door gaskets.
  - b. Mullion Surfaces.
  - c. Lights.
  - d. Fans.
  - e. Sealed System including the Compressor.
  - f. Ice Maker.
  - g. Water Dispenser.
  - h. We also inspect for proper installation.
  - i. Any Other Concern You May Have.

This service also includes a written report that verifies all items inspected as well as any repair recommendations.

Our special price for this program....\$ 125.00

Normal Charge for this service.....\$ 173.00      You save \$ 43.00

If you mention the "Condenser Clean Letter" when calling for this service, you will receive the benefit of our special price. Also, there is a \$ 75 charge for each additional refrigeration unit needing this service.

Our Goal: "Excellence In Service"
